Cycle of AmeriCorps Program Development

What is a Site?

AmeriCorps grants typically operate on three levels:

- Grantee (parent organization)
- Operating Sites (manage program on state/regional level)
- Service Locations (where members serve)

Depending on program design, particular sites may function on more than one level.

The grantee has overall legal, administrative, and fiscal responsibility for the entire scope of the program.

In this course, the general term 'site' refers to both operating sites and service locations.

Role of Sites

Operating sites and service locations are key players in AmeriCorps member training, support, and supervision.

Grantees must create strong site management practices to:

- *Prevent* any non-compliance issues
- *Detect* problems if they occur
- *Enforce* prompt corrective actions
